“

What is this Sudarśana cakra? The Sudarśana cakra is the glance of the Supreme Personality of Godhead by which He creates the entire material world. (...) The Sudarśana cakra, which is the origin of creation and is most dear to the Lord, has thousands of spokes. This Sudarśana cakra is the killer of the prowess of all other weapons, the killer of darkness, and the manifestor of the prowess of devotional service; it is the means of establishing religious principles, and it is the killer of all irreligious activities.
